PROFESSIONAL SUMMARY

Certified Project Management Professional (PMP®) with a strong background in delivering large-scale IT and e-Government projects. Skilled in managing the full project lifecycle—from planning and stakeholder coordination to implementation and support—within public sector and regulatory environments. Experienced in developing and integrating Single Window systems, tax administration platforms, and digital services to improve operational efficiency and service delivery. Known for a structured approach, attention to detail, and the ability to lead cross-functional teams in dynamic, deadline-driven settings.
